• Il morsetto Jolly Pack montato solo da un lato consente una posa veloce che non teme confronti, l'operatore può effettuare la regolazione dall'interno. Il sistema permette al vetro di poggiare su un profilo continuo verso il lato di spinta garantendo la massima stabilità.

• The "Jolly Pack" clamp installed only on one side allows for rapid laying which is second to none, and the operator can perform the adjustments internally. The system enables the glass to lie on a continuous profile towards the thrust side which guarantees the highest stability.

• Der nur auf einer Seite montierte Jolly Pack Klemmhalter ermöglicht eine schnelle Installation, die keine Vergleiche scheut. Sie können die Regulierung bequem von innen durchführen. Das System ermöglicht den Glasscheiben, auf ein durchgehendes Profil gegen den Seitenschub hin abzustützen und so die maximale Stabilität zu gewährleisten.
